DY810

Weight Indicator

GRV Automation | CE Certified | Custom Configurations Available on Request

Application / Features

- Torque rotate speed and power display controller
- Automatic assembly line torque monitoring
- Compatible with dynamic torque sensors
- Real-time display of torque and RPM
- RS485 communication for data logging
- Assembly automation, torque monitoring, quality control

Rated range: Standard

Input Signal		**Torque sensor / load cell**
Display		**LCD 7-segment**
Measurement		**Torque + speed + power**
Communication		**RS485 Modbus RTU**
Output		**4-20mA / relay**
Power Supply	V AC	**220 +/-10%**
Operating Temp.	degC	**0 to +45**

1) High temperature sensors available (max. 150 deg C). 2) High impedance option (1000 Ohm) on request. 3) Specifications subject to change without prior notice.
