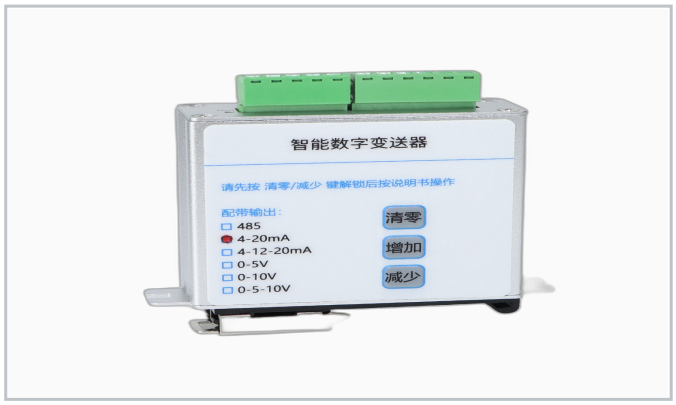
DY500

Transmitter

GRV Automation | CE Certified | Custom Configurations Available on Request



Application / Features

- 0-10V load cell weighing transmitter
- Amplifier for sensor to analog signal conversion
- Compatible with all standard load cells
- Compact size for panel or DIN rail mounting
- Stable output under temperature variation
- Weight transmitters, industrial control, PLC integration

Rated range: Standard

Input Signal		**Load cell mV/V (0.1-3 mV/V)**
Output		**0-10V DC**
Accuracy		**<=0.05% F.S.**
Power Supply	V DC	**12-24**
Operating Temp.	degC	**-10 to +55**
Communication		**RS485 (optional)**
Enclosure		**DIN rail mount**

1) High temperature sensors available (max. 150 deg C). 2) High impedance option (1000 Ohm) on request. 3) Specifications subject to change without prior notice.
